Sydney • Tokyo • Toronto

MATHEMATICAL MODELLING

An International Journal

Editors-in-Chief

Ervin Y. Rodin
Department of Systems Science and Mathematics
Box 1040, Washington University
St Louis, MO 63130, U.S.A.

Xavier J.R. Avula
Department of Engineering Mechanics
University of Missouri-Rolla
Rolla, MO 65401, U.S.A.

Editorial Board

Rutherford Aris
University of Minnesota

H.T. Banks
Brown University

Martin Braun
Queens College, New York

Roger W. Brockett
Harvard University

Colin W. Clark
University of British Columbia

G.B. Dantzig
Stanford University

John U. Farley
Columbia University

R. Glowinski
Laboratoire de Recherche en Informatique et Automatique, Le Chesnay, France

H.S. Green
University of Adelaide, South Australia

Frank Harary
University of Michigan

J.N.R. Jeffers
Institute of Terrestrial Ecology, England

Rudolf E. Kalman
Swiss Federal Institute of Technology, Zurich and University of Florida

Herbert Keller
California Institute of Technology

Murray S. Klamkin
University of Alberta

M.D. Kruskal
Princeton University

Roger E. Levien
Xerox Corporation, Laxenburg, Austria

Simon A. Levin
Cornell University

William F. Lucas
Claremont Graduate School, California

N. Metropolis
Los Alamos Scientific Laboratory, New Mexico

William F. Miller
SRI International, Menlo Park, California

J.C.J. Nihoul
Université de Liege, Belgium

James J. O'Brien
Florida State University

Hans Oestreicher
Aerospace Medical Research Laboratory, Ohio

Edward C. Posner
California Institute of Technology

Ilya Prigogine
Brussels, Belgium

C.R. Rao
University of Pittsburgh

Fred S. Roberts
Rutgers University

Robert Rosen
Dalhousie University, Canada

Gian-Carlo Rota
Massachusetts Institute of Technology

Thomas L. Saaty
University of Pittsburgh

Stephen Smale
University of California

Jerome Spanier
Claremont Graduate School, California

Lynn Arthur Steen
St Olaf College, Minnesota

T.J. Tarn
Washington University, Missouri

Samuel C.C. Ting
Massachusetts Institute of Technology

H. von Gierke
Yellow Springs, Ohio

Lotfi Zadeh
University of California, Berkeley

O.C. Zienkiewicz
University of Wales

H.-J. Zimmerman
Rheinisch-Westfalische Technische Hochschule Aachen, F.R.G.

Book and Survey Editor

D.N.P. Murthy, Department of Mechanical Engineering, University of Queensland, St Lucia, Brisbane, Qld 4067, Australia

Editorial Assistant

Patricia A. Busch, Department of Systems Science and Mathematics, Box 1040, Washington University, St Louis, MO 63130, U.S.A.

Publishing Office: Journals Production Unit, Pergamon Journals Ltd, Hennock Road, Marsh Barton, Exeter, Devon EX2 8NE, England (*Tel.* Exeter (0392) 51558; *Telex* 42749).

Subscription and Advertising Offices: Enquiries from customers in North America should be sent to Pergamon Journals Inc., Maxwell House, Fairview Park, Elmsford, NY 10523, U.S.A.; and from the rest of the world to Pergamon Journals Ltd, Headington Hill Hall, Oxford OX3 0BW, England.

Published Monthly. *Annual institutional subscription rate* (1988), DM1045.00; *two-year institutional subscription rate* (1988/89), DM1985.50. *Personal subscription rate* for those whose library subscribes at the regular rate (1988), DM185.00. Members of the AMS/MAA, SIAM, IAMM and SES may order personal subscriptions at a concessional rate; details of these rates are available upon request. Prices are subject to change without notice. Notify 8 weeks in advance of address change with a copy of the subscription mailing label. *Microform subscriptions:* information available upon request.

It is a condition of publication that manuscripts submitted to this journal have not been published and *will not be simultaneously submitted or published* elsewhere. By submitting a manuscript, the authors agree that the copyright for their article is transferred to the publisher if and when the article is accepted for publication. The copyright covers the exclusive rights to reproduce and distribute the article, including reprints, photographic reproductions, microform or any other reproductions of similar nature and translations. No part of this publication may be reproduced, stored in a retrieval system or transmitted in any form or by any means, electronic, electrostatic, magnetic tape, mechanical, photocopying, recording or otherwise, without permission in writing from the copyright holder.

Photocopying information for users in the U.S.A.
The Item-fee Code for this publication indicates that authorization to photocopy items for internal or personal use is granted by the copyright holder for libraries and other users registered with the Copyright Clearance Center (CCC) Transactional Reporting Service provided the stated fee for copying beyond that permitted by Section 107 or 108 of the U.S. Copyright Law is paid. The appropriate remittance of $3.00 per copy per article is paid directly to the Copyright Clearance Center Inc., 27 Congress Street, Salem, MA 01970.

Permission for other use. The copyright owner's consent does not extend to copying for general distribution, for promotion, for creating new works, or for resale. Specific written permission must be obtained from the publisher for such copying.

The Item-fee Code for this publication is
0270-0255/87 $3.00 + 0.00

LIST OF CONTENTS

Number 1

Announcement

i New Educational Mathematical Modelling Modules

S. Mochon 1 An analysis of the traffic on highways with changing surface conditions

T. C. E. Cheng 13 Minimizing the average deviation of job completion times about a common due-date: an extension

D. N. P. Murthy and **E. Y. Rodin** 17 A comparative evaluation of books on mathematical modelling

R. O. Dillman and **J. A. Koziol** 29 A mathematical model of monoclonal antibody therapy in leukemia

Y. Yavin and **R. de Villiers** 37 Avoiding being tracked by a rotating camera: a stochastic control problem

S. Thore and **S. Isser** 51 A goaling format for national energy security

Y. Lirov 63 A locally optimal fast obstacle-avoiding path-planning algorithm

69 Survey, Review and Bibliographic Articles of Interest to Mathematical Modelling

71 Mathematical Modelling Reports

I Software Survey Section: MINOS 5.0, contributed by M. Saunders; Strong Component Hierarchical Clustering, contributed by P. B. Slater; DEDUCAO and ANALISE CONTEUPO, contributed by J. E. Barbosa *et al.*

Notice

V First IFAC Symposium on Modelling and Control in Biomedical Systems, Venice, Italy, 6–8 April 1988

Number 2

Announcement

i New Educational Mathematical Modelling Modules

S. Häkkinen 81 A constitutive law for sea ice and some applications

S. V. R. Rao and **J. A. Rasmussen** 91 A stochastic model for forecasting storm water drainage patterns

Y. Lin 95 A model of general systems

P. Arestis and **E. Karakitsos** 105 The superiority of "optimal control" over simulation in policy analysis

A. P. Wang 117 Correction of atmospheric effects on remote sensing (new mathematical models and approximation solutions)

J. R. Southam, W. H. Peterson and **G. W. Brass** 125 A model of global and basin-scale anoxia

Book Reviews

V. G. Hart 147 Mechanics, Boundary Layers and Function Spaces, by D. Ó Mathúna

G. Zazi 149 Application and Implementation of the Finite Element Methods, by J. E. Akin

151 Mathematical Modelling Reports

THE ANALYTIC HIERARCHY PROCESS

THEORETICAL DEVELOPMENTS AND SOME APPLICATIONS

R. W. Saaty and **L. G. Vargas** v Preface

R. W. Saaty 161 The Analytic Hierarchy Process—what it is and how it is used

International Use of the Analytic Hierarchy Process

B. Liu and **S. Xu** 179 Development of the theory and methodology of the Analytic Hierarchy Process and its applications in China

R. G. Vachnadze and **N. I. Markozashvili** 185 Some applications of the Analytic Hierarchy Process

Some Applications Involving Absolute Measurement

E. H. Forman 195 Relative vs absolute worth

K. Peniwati and **T. Hsiao** 203 Ranking countries according to economic, social and political indicators

E. N. Weiss 211 Using the Analytic Hierarchy Process in a dynamic environment

Input–Output Analysis and Macroeconomic Forecasting

T. L. Saaty 219 A new macroeconomic forecasting and policy evaluation method using the Analytic Hierarchy Process

A. E. Steenge 233 Consistency and composite numeraires in joint production input–output analysis; an application of ideas of T. L. Saaty

Public Sector and Legal Case Planning

G. A. Grizzle 245 Pay for performance: can the Analytic Hierarchy Process hasten the day in the public sector?

V. P. Dorweiler 251 Legal case planning via the Analytic Hierarchy Process. Litigation—or—conflict resolution

Finance and Marketing

R. E. Jensen 265 International investment risk analysis: extensions for multinational corporation capital budgeting models

Y. Wind 285 An Analytic Hierarchy Process based approach to the design and evaluation of a marketing driven business and corporate strategy

N. Bahmani and **H. Blumberg** 293 Consumer preference and reactive adaptation to a corporate solution of the over-the-counter medication dilemma—an Analytic Hierarchy Process analysis

A. Arbel 299 Venturing into new technological markets

Theory

J. Aczél and **C. Alsina** 311 Synthesizing judgements: a functional equations approach

E. J. Barbeau 321 Reciprocal matrices of order 4

G. B. Crawford 327 The geometric mean procedure for estimating the scale of a judgment matrix

S. Y. Dennis 335 A probabilistic model for the assignment of priorities in hierarchically structured decision problems

D. M. DeTurck 345 The approach to consistency in the Analytic Hierarchy Process

P. T. Harker 353 Alternative modes of questioning in the Analytic Hierarchy Process

P. Korhonen 361 The specification of a reference direction using the Analytic Hierarchy Process

T. L. Saaty 369 How to handle dependence with the Analytic Hierarchy Process

A. R. Banai-Kashani 377 Dominance and dependence in input–output analysis: the nonlinear (network) approach

L. G. Vargas 381 Priority theory and utility theory

F. Zahedi 387 A utility approach to the Analytic Hierarchy Process

Number 6

FUZZY SYSTEMS

L. A. Zadeh v Foreword

D. Dubois, H. Prade and **R. R. Yager** vii Editorial

A. Rapoport, T. S. Wallsten and J. A. Cox 397 Direct and indirect scaling of membership functions of probability phrases

H. Bandemer 419 From fuzzy data to functional relationships

W. Pedrycz 427 Fuzzy models and relational equations

J. C. Bezdek and R. J. Hathaway 435 Clustering with relational c-means partitions from pairwise distance data

R. R. Yager 441 Cardinality of fuzzy sets via bags

S. T. Wierzchoń 447 Linear programming with fuzzy sets: a general approach

D. Dubois 461 An application of fuzzy arithmetic to the optimization of industrial machining processes

M. N. McAllister 477 Availability, production and competition: a model

C. B. Brown and J. T. P. Yao 491 Recent civil engineering applications of fuzzy sets

Number 7

Announcement

i New Educational Mathematical Modelling Modules

Y. Lin and Y. Qiu 493 System analysis of the morphology of polymers

T. C. E. Cheng and K. L. Teo 499 Further extensions of a student-related optimal control problem

T. W. Tesche 507 Comparison of two numerical schemes for integrating the atmospheric diffusion equation: evaluation with atmospheric data

J. H. May, N. Ravi, R. S. Thorn and S. Sankaranarayanan 521 A multi-period bank portfolio management program

A. P. Wang 533 Correction of atmospheric effects on earth imaging (extended inverse method)

M. Sonis and D. S. Dendrinos 539 Period-doubling in discrete relative spatial dynamics and the Feigenbaum sequence

D. C. Brauer, G. Naadimuthu and E. S. Lee 547 Effective program planning for multiple projects under limited resources

M. Katz 553 Modelling inexact utility theory in a multi-valued logic of approximation

Book Review

D. N. P. Murthy 569 A First Course in Mathematical Modelling, by F. R. Giordano and M. D. Weir

571 Erratum

i New Educational Mathematical Modelling Modules

T. C. E. Cheng 573 Optimal due-date determination and sequencing with random processing times

A. Papakyriazis 577 Controlling environmental systems: an adaptive control approach

M. Zak 599 Deterministic representation of chaos with application to turbulence

D. Ellis and **K. Miller** 613 A mathematical analysis of tension shocks in long belt conveyors

M. Mesterton-Gibbons 625 When does a T-junction require a left-turn lane?

W. Y. Tan and **C. C. Brown** 631 A nonhomogeneous two-stage model of carcinogenesis

D. W. Paul 643 Randomized formal systems for specifying discrete stochastic models

H. Demiray and **H. A. Erbay** 651 An orthotropic elastic model for rat abdominal aorta
